OBJECTIVE

A motivated Mobile App Developer with hands-on experience building robust cross-platform applications using Flutter. Skilled in BLoC architecture, Firebase services, and creating clean, responsive UI/UX designs. A proactive problem-solver with the ability to collaborate effectively in team settings.

SKILLS

Languages	Dart, Java, SQL
Frameworks	Flutter, BLoC, Provider
Technologies	Firebase (Auth, Firestore, Storage, FCM), REST APIs, Git
Tools	Android Studio, VS Code, GitHub, Figma
Concepts	Rapid Prototyping, Clean Architecture, Agile, Responsive Design
Soft Skills	Communication, Problem Solving, Teamwork, Adaptability, Time Management

COMPETITIVE DEVELOPMENT

SmartFarm – Agricultural Solutions App Visio Spark '25 Qualifier

Flutter, Provider, Responsive Design

- Developed a feature-rich app in a high-pressure 2.5-hour sprint, implementing real-time weather forecasting APIs.
- Designed an accessible UI/UX optimized for rural users with low-bandwidth connectivity.
- GitHub: github.com/mun33b-exe/SmartFarm

StudyCircle – Study Group Finder COMBITS '25 Competition

Flutter, Firebase (Auth, Firestore, Storage), Provider, Responsive Design

- Engineered a fully functional academic networking platform in a high-pressure 6-hour timeline.
- Designed a scalable Firestore schema for managing user profiles, study groups, and real-time sessions.
- Implemented complex business logic for group privacy and member limits using Provider state management.
- GitHub: github.com/mun33b-exe/Study-Circle

EXPERIENCE

Flutter Developer Intern (Remote) May 2025 – July 2025

DevelopersHub Corporation, Islamabad

- Developed and maintained cross-platform mobile applications using Flutter.
- Applied BLoC architecture for scalable and efficient state management.
- Participated in Agile sprints and utilized Git for version control.

PROJECTS

Chatzilla – Real-Time Messaging App

- Developed a low-latency messaging application supporting real-time synchronization for 100+ concurrent users.
- Implemented BLoC state management to handle complex UI states, reducing unnecessary widget rebuilds by 40%.
- GitHub: github.com/mun33b-exe/chatzilla

IMEI Tracker

- Implemented real-time database triggers to automate device status updates, streamlining workflows for mobile retailers.
- GitHub: github.com/mun33b-exe/imei-manager

EDUCATION

BS – Software Engineering, COMSATS University Islamabad Sep 2022 – July 2026

FSc – Pre-Engineering, Aspire Group of Colleges 2020 – 2022
